

Mad Science of London

519-472-8002

www.madscience.org/London

Thank you for your interest in Mad Science. We have a variety of options designed to make an awesome party for your kids, and provide a hassle-free and almost effortless experience for you.

All our parties are designed to provide fun, interactive entertainment for kids aged 6-12 (and we have a special party just for the younger kids!) We generally start a party off with a magic trick that allows the Mad Scientist to break the ice, and paves the way for a series of cool science experiments. Throughout, our goal is to get the kids actively participating, so the kids will be involved in the experiments and being assistants to the Mad Scientist. To make sure that each child gets to participate in this way no matter the size of the group we have a hands-on activity so that every kid can make their own experiment to take home! The Mad Scientist brings everything that is needed for the party and takes any mess away when they leave. All we need is a space where the kids can get comfortable and everybody can see (ideally in an area where the lights can be dimmed), a table to set up our equipment, and access to electricity and water. All of our parties are designed for up to 15 kids; for each additional child a \$2.00 charge applies.

Basic Party 45-55min \$150 plus tax

The basic no frills package for those who have other activities planned or want to keep the price down.

- Slime or Super balls to make and take home

Standard Party 60-70min \$180 plus tax

Our most popular package includes our Bubbling Potions series of experiments in addition to the usual Birthday experiments. Kids will thrill to Carbon Dioxide bubbles, taste the Burp gas and have bubbles on their hands, bubbles on their heads – bubbles everywhere!

- Slime or Super balls to make and take home
- Mad Science Gift for Birthday Child

BEST BUY – 10% discount on Goody Bags added to your Standard Party!

Mega Party 70-80min \$200 plus tax

Wow! What a party! Kids will thrill to Carbon Dioxide bubbles, taste the Burp gas and have bubbles on their hands, bubbles on their heads – bubbles everywhere as part of our Bubbling Potions series of experiments. Not only that, but you still get to choose another set of experiments; Cotton Candy making, or Periscope making or maybe a Rocket Launch to add to the amazingness of the party! Ask when you call what is available.

- Slime or Super balls to make and take home
- Mad Science Gift for Birthday Child

BEST BUY – 10% discount on Goody Bags added to your Mega Party!

Mini Mad Scientist Party 45-50min \$150 plus tax

This party is specially designed for 4 and 5 year olds. Rather than taking the risk that somebody might eat some slime, we have replaced the Take-home experiment with our Bubbling Potions series of experiments. Kids can sit on a cloud, taste the Burp gas and have bubbles on their hands, on their heads – bubbles everywhere!

- Thermocolour changing cups to take home

GOODY BAGS – add to the fun of any party with branded Mad Science Goody Bags. Stocked with a selection of cool science toys, loot bags keep the science fun happening for days.

Mad Science Goody Bag \$6.00

Contents: Helix flyer, Polymer Putty, Spin Disk, Science Skin-prints, Flip Top and Grow Creature and Mad Science Sticky Stickers.

Specially designed for Mad Science, you won't find the contents in any store.

Don't Have Room in Your House?

The Mad Science Lab at 123-4026 Meadowbrook Dr in London is ready to accommodate your kids. You can keep the mess, the noise and the excitement in our facility, rather than spread across your living room. Booking our party room costs an additional \$40 (plus tax) for an hour block of time. Parental supervision is still required through the duration.

When you are ready to book your party, just give us a call.

Sparkling imaginative learning
